

IN THE SPECIFICATION

Please cancel the original specification and substitute therefor the enclosed substitute specification. The original specification was a literal English language translation of the Swiss priority document and, as such, contained numerous grammatical errors, awkward syntax, and generally did not conform to standard U.S. practice. The substitute specification corrects these matters and will greatly facilitate prosecution of the application. Applicant submits that no new matter is injected into the application by way of the substitute specification. A marked-up copy of the originally filed specification is enclosed for the Examiner's reference.

IN THE CLAIMS

Please cancel claim 1. Claims 2 through 14 were cancelled in a Preliminary Amendment filed with the Missing Parts. Please insert new claims 15 through 30 as follows:

Sub C1
B2

--15. A method for spinning yarn from a fiber bundle, the method comprising:
conveying individual fibers from the fiber bundle at a fiber delivery point towards a fiber bundling point at a spindle;
subjecting the conveyed fibers to a rotating air stream at an intake mouth a yarn channel defined in the spindle, the rotating air stream spinning the fibers into a yarn drawn off through the spindle;
dividing the fibers conveyed to the spindle into at least two fiber streams, the fiber air streams being conveyed through at least two separate conveying channels;
and
